# WHO'S *FosRich*?

- Distributor of Lighting, Electrical, and Solar Energy Products
- Specializing in Refurbishing Pole-Mount Transformers.
- Sole Manufacturer of PVC Conduits and Pipes in Jamaica.
- Strategic Partnerships with Global Brands
- We are trusted partners and distributors for several globally recognized brands, seeking to expand their local distribution channels. Our strategic partnerships include industry leaders such as: Signify (formerly Philips Lighting, Victron Energy, Semens, HUAWEI Fusion Solar, Jinko Solar, Current (formerly GE Lighting), and more.
- Through these partnerships, we bring world-class products to the Jamaican market, supporting the transition to energy-efficient and sustainable solutions
- FosRich is committed to offering high-quality products and services that meet the diverse needs of our customers. We differentiate ourselves from competitors in the Jamaican marketplace by providing cost-effective solutions without compromising on quality, ensuring that our clients receive the best value for their investment.

# Our Journey & Commitment to Excellence

**Founded in 1993** with just 3 employees, FosRich has expanded to a team of **234** across **9 locations** in:

- Kingston
- Mandeville
- Drax Hall
- Old Harbour
- Montego Bay
- Clarendon

Our growth has been driven by our clients' trust and confidence in us. We now serve diverse industries, including **electrical, solar energy, industrial, and hardware.**

# Our Core Offerings

<b>Lighting Solutions:</b>	<b>Philips LED bulbs &amp; fixtures:</b> Cutting-edge lighting technology for energy efficiency. <b>Smart Lighting:</b> Integration for enhanced control and automation.
<b>Electrical Solutions:</b>	Distribution of <b>high-quality wiring devices</b> , panels, and industrial equipment from brands like Siemens and GE.
<b>Solar Energy Systems:</b>	<b>Solar Water Heaters</b> <b>Solar PV Systems:</b> Featuring <b>HUAWEI Fusion Solar, DEYE</b> and <b>Victron Energy</b> for reliable, sustainable energy solutions.
<b>Manufactured Products:</b>	<b>PVC Conduits &amp; Pipes:</b> Locally produced for durable, cost-effective construction. <b>Refurbished Pole-Mount Transformers</b>

# SOLID

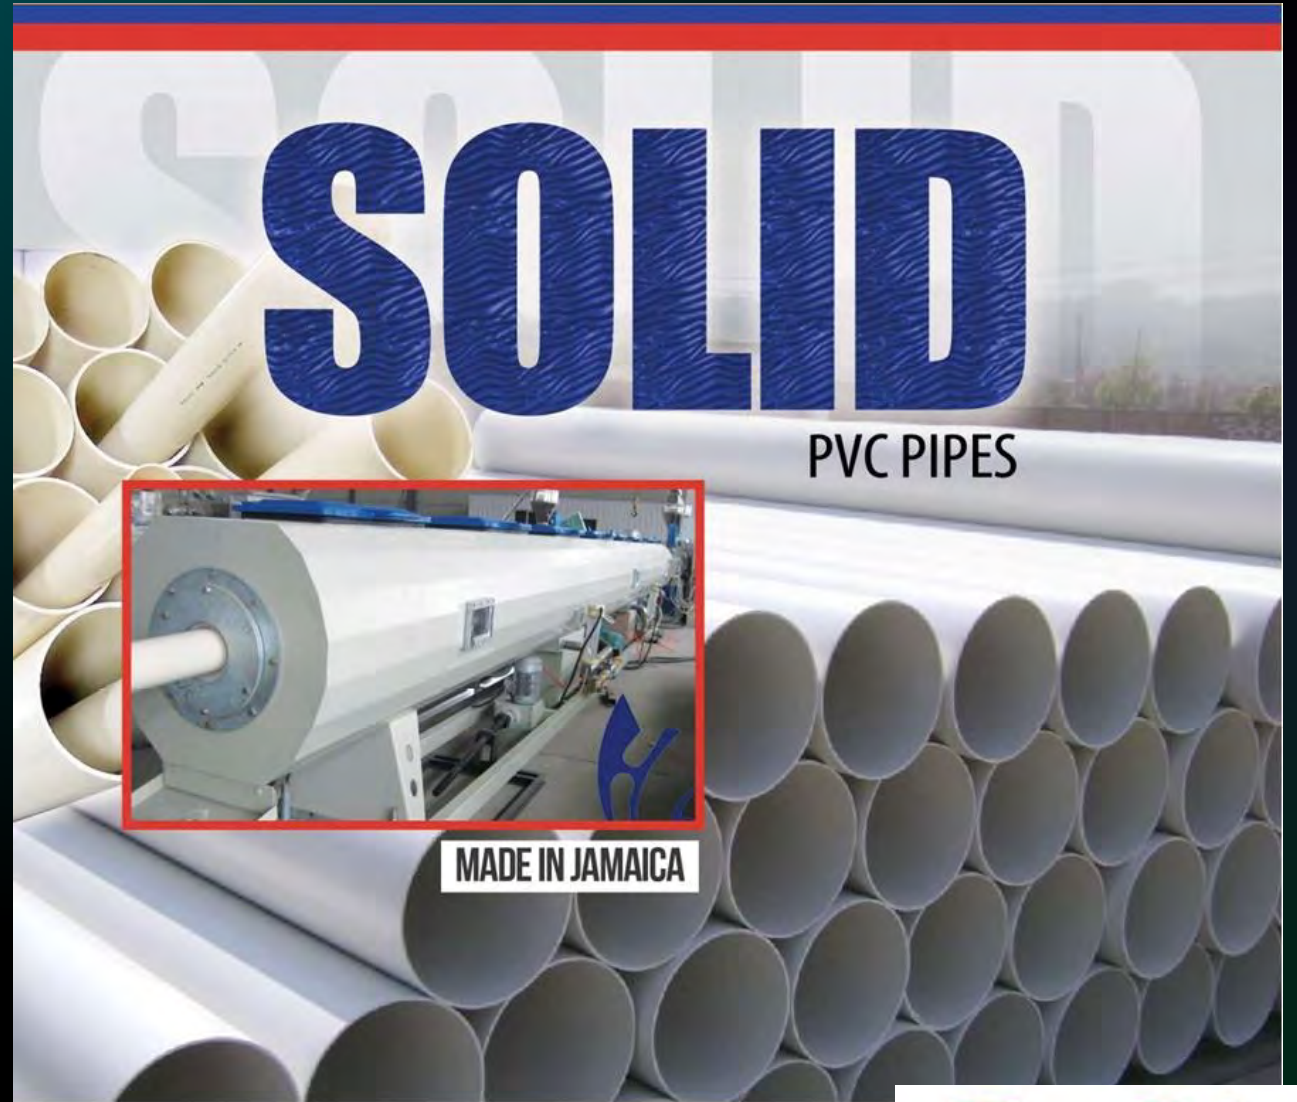

## PVC PIPES

**TEAM MEMBERS/PRESENTERS:**

DR. WENDY FRECKLETON

GARFIELD JACKSON

HECTOR MENDOZA

**Polyvinyl Chloride (PVC) piping is the most widely used plastic piping material in the world.**

### **WHY PVC?**

- Environmentally sound
- Provide long service life
- Easy to install and handle
- Corrosion resistant
- Cost effective
- Widely accepted by codes

# ELECTRICAL CONDUITS

- PVC tubes that protect electrical wires and cables from damage, moisture, and environmental elements
- PVC conduits ranges from 20mm to 50mm
- PVC Electrical Coupling ranges from 20mm to 50mm

# SCHEDULE 40 PVC PIPES

These are rigid, lightweight, and durable pipes made from polyvinyl chloride (PVC) with a standardized wall thickness (from ½" to...).

## **Applications include:**

- Plumbing- potable water, drainage, vent, etc.
- Electrical- protect electrical wires in underground applications
- Industrial- transport fluids, chemicals, etc.
- Structural Support- making tents or signs
- Agriculture- rainwater harvesting, irrigation setup, etc.

# DRAIN – WASTE – VENT (DWV) PVC PIPES

These are pipes made from un-plasticized PVC (PVC-U) that are used to carry wastewater and water out of a building.

## **Applications include:**

- Plumbing- wastewater, drainage, vent, etc.
- Sinks, toilets, and liquid handling in manufacturing are examples that make use of a DWV pipeline
- DWV pipes have a simple belled end/socket (solvent weld joint)
- SOLID manufactured sizes:

1¼", 1½", 2", 3", 4", 6"

**FosRich**  
COMPANY LIMITED

# SDR-21 PVC Pipes

This is a pressure-rated pipe that has many uses.

## Applications:

- **Water supply:** can be used for potable water supply lines, transmission mains, and well casings
- **Irrigation:** can be used for golf courses and other irrigation systems
- **Sewage:** can be used for sewage force mains
- **Storm-water:** can be used for storm-water disposal
- **Industrial:** can be used for industrial process piping

**SOLID manufactured sizes:**

# SDR-41 PVC SEWER PIPES

## Application:

- Mainly used for underground sewage applications not exceeding 100 psi.
- Metric sewer pipes have a Gasket joint at one end and a chamfer at the opposite end.

## **SOLID manufactured sizes:**

**100mm, 150mm, 200m, 250mm,  
300mm**

# PVC FITTINGS

# Why FosRich?

---

**Local Expertise:** A deep understanding of Jamaica's energy needs, backed by our team of **energy and electrical engineers**.

---

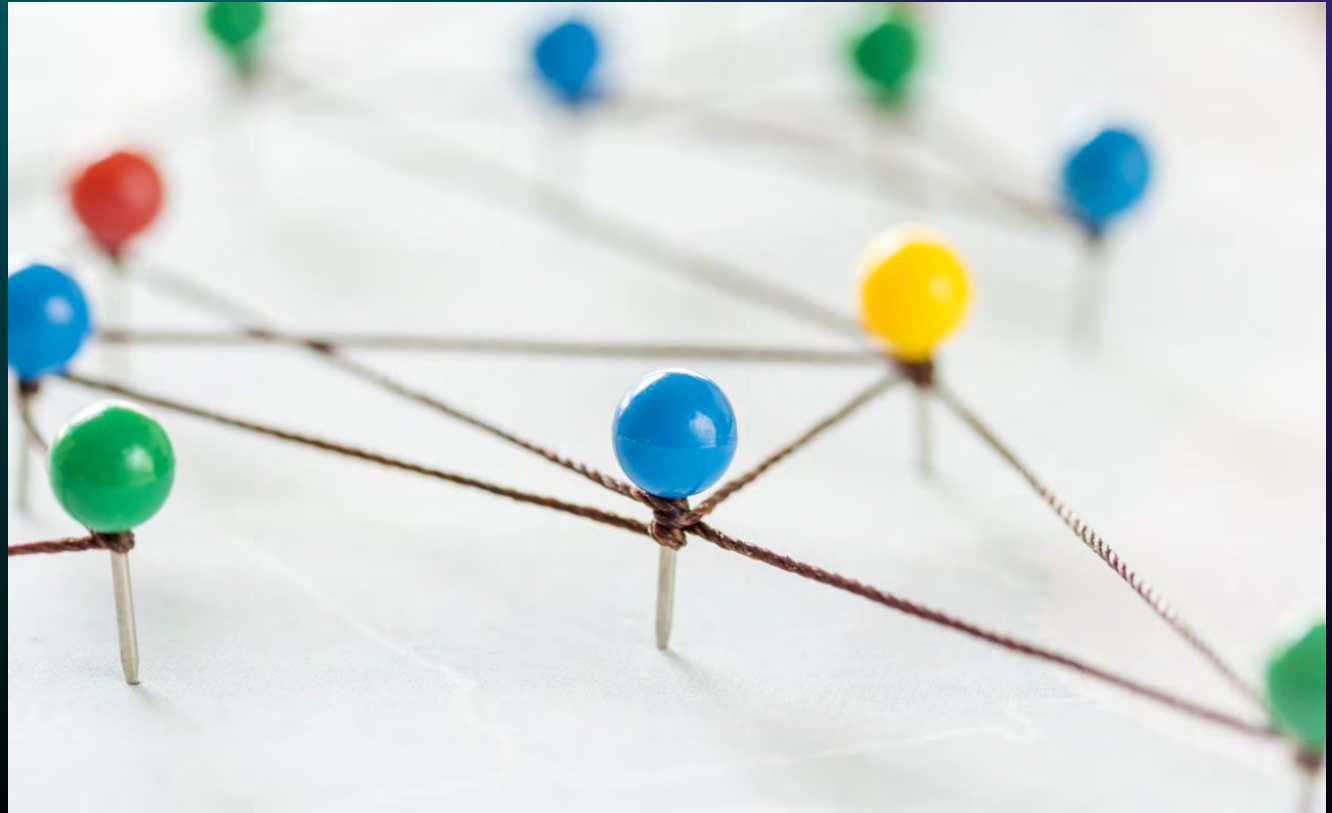

**Tailored Solutions:** We work closely with clients to provide **customized technical solutions** that align with your project's goals.

---

**End-to-End Service:** From product selection to **installation of solar water heaters, energy systems, and industrial panel boards**, FosRich offers a complete package.
